

2018 ARRL Field Day Results

More than 35,000 participants amassed over 1.18 million contacts at this year's Field Day event.

Bart Jahnke, W9JJ

ARRL Contest Branch Manager

Every year, during the fourth full weekend in June, the bands light up with stations calling "CQ Field Day." Now in its 85th year, ARRL's most popular event was last held from June 23 – 24, 2018, with reports from nearly 3,000 groups heralding the largest Amateur Radio social event in North America.

In 2018, more than 35,250 participants were reported by entries from local clubs and individual portable, mobile, and home stations. Several of the portable stations braved the elements of heat and rain, as well as difficult terrain like hills and valleys, turning in respectable contact totals while practicing for a day when their portable stations may be needed after an emergency or disaster. Several groups also reported that their social and direct media efforts paid off, with visits from served agencies and municipal, state, and government officials.

This year's Field Day participants amassed over 1.18 million contacts. Overall attendance was down about 6%, and overall QSO totals down about 9% compared to 2017. These are respectable numbers, considering the lowness of the sunspot cycle and the inclement weather in some areas.

The Lamorinda Amateur Radio Interest Group, K6ORI, was well represented on ARRL Field Day in 2018. In the back row, from left to right: Ginny Merrifield, KM6QYC; Sandi Gritzer, KK6FTA; Scott Anderson, KW6SA; Alan Wong, KK6WA; Jeff Peacock, KM6NQX, and Eric Dausman, KD7DNM. In the middle row, from left to right: Gene Gottfried, KQ6OL; Dan Lamey, KD6DTL; Keith Riley, K6KWR; Carol Bergren, KJ6MYA; Salahuddin Kamran, K2KK; Jack King, KK6TZL; Mary Solon, KD6MKS, and Todd Gritzer, KK6FSZ. In the front row from left to right: Elizabeth Dausman, KD7PFH, and Patti Young, KE6TJY. [Lamorinda Amateur Radio Interest Group, K6ORI, photo]

Activity by Class

Class A — The most popular operating category, these are Club or Non-Club groups of three or more people who set up a temporary/portable Field Day site away from their usual stations or locations: 1,253 entries (43.2%)

Class B — These are the temporary/portable Club or Non-Club groups of one or two people who set up their Field Day sites away from their usual stations or locations: 352 (12.1%)

Class C — These are the mobile or rover operators from vehicles, and sometimes even bicyclists or hikers that covered miles with an HF/VHF backpack station: 45 (1.6%)

Class D/Class E — Stations operating from home, either with commercial power (Class D) or emergency power (Class E): 1,067 (36.7%)

Class F — Stations operating from or as EOCs: 186 (6.4%)

Checklogs — 22 checklogs were acknowledged (see the list at the bottom of the logs received page at www.arrl.org/logs-received).

Geographical Participation and Looking Forward

While contacts are the main draw in this event, tracking how many ARRL Sections and/or DX stations were worked during ARRL Field Day is always exciting for new hams and for sharing with curious visitors. For

ARRL Field Day 2018, participants submitted entries from all 83 ARRL/RAC sections, as well as from Chile, the Czech Republic, and Japan.

As far as future ARRL Field Days are concerned, in a world with cell phones and the internet, Amateur Radio is now one of many technologies attracting participants. Aside from assisting after disasters or emergencies — where Amateur Radio may be one of a handful of potential life lines to the world — it is only through in-person demonstration, mentoring, outreach, and publicity that we hope to grow interest in our exciting hobby. Field Day brings focused ham radio education to participants when and where they're most interested.

If you are not already doing so, be sure to share your Field Day experiences with the public (including social media like Facebook, Twitter, and Instagram) to earn a Field Day 100-point bonus. Then share your posts on ARRL's Facebook Page (the 2018 Field Day page can be found at <https://www.facebook.com/groups/fd2018>). Post any community proclamations you received by mail, and for in-person deliveries, don't forget to ask for a photo.

Check out some of the great ARRL Field Day 2018 videos on YouTube at https://www.youtube.com/results?search_query=ARRL+Field+Day+2018. Scroll down to see what some

individuals, clubs, and groups of clubs were doing to generate excitement.

ARRL Field Day often brings with it an audience of licensed hams and inquisitive visitors. Many groups this year sought out the Educational Activity Bonus. While short training programs were the most popular, some groups offered license classes, license exams, antenna building, coax cutting, installation of connectors, and station accessory assembly and testing. Visit www.themtnear.com/2018/07/ned-hams-join-national-field-day to see some examples of youth involvement in Amateur Radio. First Aid and AED training was reported to again be very popular. The Safety Officer bonus is also now a must-have in most group efforts, as a pound of effort brings a ton of rewards in keeping Field Day safe.

Looking ahead to ARRL Field Day 2019, groups are already reserving their public sites; setting goals for their stations, bands, modes, activities, and bonuses; making plans and assigning tasks within their group, and preparing for the day they may be called upon to utilize Amateur Radio in an emergency. Field Day is an annual way to demonstrate our readiness and keep in practice for such occasions. We hope to see you or your group on the air next year, from June 22 – 23, 2019!

Scores

Score listings are grouped according to the number of transmitters in simultaneous operation and their entry class. The listings show club or group name, call sign(s) used, total number of QSOs, number indicating power output used (5 is less than 5 W, 2 is less than 150 W, 1 is more than 150 W), number of participants, and total score including bonus points and ARRL Section. Entries are listed from highest to lowest claimed score in each class. Class A stations are clubs or groups portable with three or more participants. Class B stations are portables with one or two participants. When there are two operators, the other operator's call is listed in parentheses, if it was supplied. Class C stations are mobiles. Class D stations are home stations using commercial power. Class E stations are home stations using emergency power. Class F stations are EOC stations.
