About the Cover

Martin Ewing, AA6E, is an ARRL Lab volunteer. He became aware of the difficulty that Headquarters Staffers had trying to operate the W1HQ Staff Club Station while W1AW transmits bulletins on all bands from across the parking lot. Determined to help find a way to solve this problem, he built “A Software-Based Remote Receiver Solution” for W1HQ. Now staffers can operate the station while W1AW is on the air! You can build a remote receiver system, too.
