VIA CERTIFIED MAIL - RETURN RECEIPT REQUESTED

September 21, 2007

Eugene W. Ward, Esquire
Vice President and General Counsel
Nashville Electric Service
1214 Church Street
Nashville, TN 37246

Dear Mr. Ward:

The Federal Communications Commission notified Nashville Electric by letter of August 28, 2006 that it has received complaints of harmful radio interference caused by equipment operated by the power company. This interference was reported by an operator in the Amateur Radio Service, [REDACTED], [REDACTED], Nashville, TN 37221-3722.

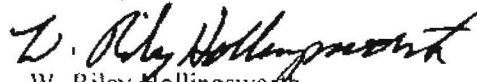

In the August 28, 2006 letter, Nashville Electric was advised that this problem, if unresolved, could be a violation of FCC rules and could result in a monetary forfeiture for each occurrence. For this reason, we encouraged the parties involved to voluntarily resolve this matter without FCC intervention. Our letter stated, however, that if it became necessary to facilitate a resolution, the FCC might investigate possible rules violations and address appropriate remedies, including monetary forfeiture.

Nashville Electric responded by letter dated June 5, 2007, stating that its personnel had met with Mr. Michael Martin of RFI Services, located the problems and considered the matter solved. [REDACTED] reports, however, that the problems have not been resolved and that the interference continues unabated. Moreover, Mr. Martin's report apparently detected several problems that were not repaired as of the time he left Nashville.

In order to avoid possible enforcement action, please advise this office by November 1, 2007 of what action you have taken, or intend to take, in order to identify and correct the source of the radio interference caused at [REDACTED] residence.

If you have any questions about this matter, please contact me at 717-338-2502.

Sincerely,

W. Riley Hollingsworth
Special Counsel
